Dong-A University is a beacon of knowledge; cultivating creative and active people based on the principles of H.A.V.E. (Humanity, Ability, Vitality, and Excellence).

Dong-A University with 67 years of proud history and tradition opened in 1946 based on the precepts of freedom, truth, and justice. It is a university that cultivates creative, proactive and sociable people, who have the ability to use their practical skills and knowledge, as well as globally transferable innovative capabilities based on H.A.V.E (Humanity, Ability, Vitality, and Excellence) to further human achievement and development.

Dong-A University is preparing for another leap forward by promoting innovative projects and system improvements in 7 key areas including; student, academic affairs/school systems, administration, finance, teaching capacity, campus development, and internationalization through its short and long term development plans. This direction for the future has been formally laid out in the “Action Plan 2016” by the University Development Planning Group which was established in September 2012.

(I think this should be the second paragraph) This university is a place where students can concentrate on their studies with an open mind to make their dreams come true. It is a place where teachers and students open their hearts to respect each other, and a hall of knowledge where students learn and study in the latest educational and research environments.

Dong-A University is contributing to regional development through competitive global innovation, it is fostering an ethos of better communication with its members and leads the future by pioneering change. Until Dong-A becomes the world’s most prestigious university (Until Dong-A becomes one of the world’s most prestigious universities), we will put forth every ounce of our strength backed with thorough preparation and bold initiatives to overcome these challenges. I would like to ask for your warm support and encouragement in our great endeavor. Thank you.

Oh Chang Kwon
President of Dong-A University
Cultivating active and creative people through the unrestrained search of knowledge

Dong-A University, DAU, is located in the beautiful port city of Busan and has been leading the internationalization and advancement of education by cultivating active, intelligent, and creative people. DAU has produced 180,000 talented people and currently 20,000 or more enrolled students are passionately devoting themselves to their studies in 10 colleges including 2 divisions and 10 graduate schools. At DAU, students study scientific knowledge and technology without restriction based on freedom, truth, and justice, exercising their faculties as leaders contributing to the betterment of their nation and humanity as a whole.

Footsteps of Dong-A University

1946 Opening of Seo-gu, Busan 1950 Competition and opening of the affiliated Dong-A hospital

1959 Establishment of the Department of Education 2000 ‘Excellent’ rating by the Korean Council for University Education
1961 Establishment of the IV/1-80,000 T.C. 2005 ‘Excellent University’ rating by The Korean Association of University Professors in 2005
1963 Establishment of the graduate school doctor’s program 2006 Establishment of the Medicine Exclusive College approved by the Ministry of Education & Human Resources Development (2009)
1979 Resolution of the College of Engineering at the newly constructed Bumin Campus in Hadan-dong, Saha-gu 2007 Establishment of Law School approved by the Ministry of Education & Human Resources Development (Capacity: 80 students)
1986 Establishment of the College of Medicine and the Department of Medicine 2009 Establishment of the Medicine Exclusive College approved by the Ministry of Education & Human Resources Development (Capacity: 50 students)
1990 Completion and opening of the affiliated Dong-A hospital 2010 Establishment of the Medicine Exclusive College approved by the Ministry of Education & Human Resources Development (Capacity: 50 students)
2005 Opening of the Cardio-cerebrovascular Center
2006 Establishment of the Medicine Exclusive College approved by the Ministry of Education & Human Resources Development (Capacity: 50 students)
2009 Establishment of Law School approved by the Ministry of Education & Human Resources Development (Capacity: 80 students)
2010 Establishment of the Medicine Exclusive College approved by the Ministry of Education & Human Resources Development (Capacity: 50 students)
2011 Completion of Bumin Campus
2012 Opening of the Cardio-cerebrovascular Center

3 Specialized Campuses

Dong-A University has 3 campuses arranged by academic disciplines, and specialized for the regional development, cultivation of talented people, and intensification of industry-academic cooperation. In addition, Dong-A University continues to secure world class researchers and teaching staff in an effort to produce global human resources that will lead the global era.

Seunghak Campus : located on 704,917 m² of land in Hadan-dong, Saha-gu, Busan. Seunghak Campus holds the main administration of the university along with the College of Humanities, College of Natural Sciences, College of Human Ecology, College of Natural Resources and Life Science, College of Engineering, and College of Sports Science.

Gudeok Campus : Gudeok Campus is located in Daesin-dong, Seo-gu, Busan. Established in 1951, it is the original campus of Dong-A University. Currently, the campus centers on the School of Medicine and the College of Arts and includes the well-equipped Dong-A University School of Medicine. The campus is 45,542 m².

Bumin Campus : Bumin Campus is located in Bumin-dong, Seo-gu, Busan. This campus has some of the latest facilities, with the most recent building being completed in 2012. It hosts the Law School, College of Social Sciences, College of Business Administration, College of International Studies and Dong-A University Museum.

Providing Convenience and Comfort through Facilities Customized to Students

Dong-A University provides convenient, customized facilities so that students can concentrate effectively on their studies. Dong-A University makes it a priority to aid young talented people realize their potential in their endeavors by providing a convenient and comfortable environment.

Dong-A University Medical Center, Benevolent Art with Love

Dong-A University Medical Center opened in March 1990 with the establishment of the Department of Medicine, and it has rendered continuous services to the local community through precise diagnosis and effective treatment using up-to-date facilities and medical equipment. The center has also taken a lead in the research of advanced clinical medicine in connection with the School of Medicine. It continues to produce excellent healthcare providers to enhance the health and welfare of the nation and eradicate diseases. Furthermore, the center is sharing the latest medical technologies and information with other local medical providers, fulfilling its responsibility as an educational hospital.

Information Processing Training Center & Internet Café

Wireless internet connectivity is available in all Dong-A University campuses and computers connected to high speed internet lines are available in many places for students to freely check their e-mail and surf the web. Also, the school supports the computer related training of students by fully equipping their computers with useful programs such as Microsoft Office, Photoshop, Illustrator, AutoCAD, statistical package programs, homepage development programs, and so on.

Hallim Dormitory

Hallim Dormitory provides a comfortable and convenient place to stay for DAU people. It provides out of town students with the opportunity to familiarize themselves with the environment of Busan and enrolled students who have difficulty in commuting to school or who are under financial difficulty, with room and board. The opening of Hallim Dormitory in Seunghak Campus a number of years ago, was followed by Gudeok Campus in October 2010 and Bumin Campus in August 2012. These dormitories provide a wide range of facilities so that living on campus students can enjoy their campus life in a pleasant and comfortable manner.

Dong-A University Museum

Dong-A University Museum is located inside Bumin Campus, and it is the building formerly used by the Provisional Government as the Capital building of Korea during the Korean War. It has been designated as a Modern Cultural Asset, and the interior has been remodeled into a museum while the exterior has been maintained. The museum has a collection of over 30,000 articles including 2 national treasures and 11 treasures, and 9 tangible cultural assets designated by Busan(Metropolitan City Government). These precious relics are not found in any other university museums.
Academics

A Passion for Learning

The College of Humanities is a home to purely academic disciplines concerning humanity and culture. The college systematically teaches expert knowledge about life, history, language, world culture and humanism. The college guides students to develop fundamental values for life by encouraging students to become more independent in their thinking, along with a healthy respect for humanity and creative intelligence. Furthermore, the college promotes an appreciation for national cultures and develops leaders and thinkers for the internationalization of society and the world in the information-centered age.

Department of Philosophy and Ethical Culture / Department of History / Department of Archaeology & Art History / Department of Korean Language and Literature / Department of Creative Writing / Department of English Language & Literature / Department of German Language & Literature / Department of French Cultural Studies / Department of Chinese Language & Literature / Department of Education / Department of Child and Family Studies

The College of Social Sciences aims to produce practical and creative people ready for the information-centered international era. Based on their study and inquiry into overall social phenomena including politics, economics, administration, and journalism, students will develop realistic and holistic thinking skills to solve various social issues in society.

Department of Political Science & Diplomacy / Department of Public Administration / Department of Sociology / Department of Social Welfare / Department of Communication / Department of Economics / Department of Finance

The College of Natural Sciences is building a centre of advanced science learning and research, built upon a rich history of having provided 50 years of solid science education. The college boasts a number of academically renowned professors in a variety of fields and is producing excellent people based on their research and teaching of basic sciences. The college has laboratories with advanced equipment, a Natural Science Library, and a basic Science Research Institute enabling efficient education and research.

Department of Mathematics / Department of Materials Physics / Department of Chemistry / Department of Biology and Biomedical Science / Department of Food Science and Nutrition

The College of Business Administration is determined to produce talented business people who will play important roles for national development in today’s management environment; which has become internationalized, information-centered, and specialized. The college also attaches importance to foreign language and computer skills acquisition, as well as field training in industry based settings and developing the whole-person in order to produce business people that will lead the way in the global business era.

Department of Business Administration / Department of International Tourism / Department of International Trade / Department of Management Information Systems

The College of Law is a gateway to legal circles, it fosters a society of rational intelligence, and has contributed to the enhancement of legal culture through providing a logic-based education rationale for the last 60 years. The College of Law has grown with Dong-A University and has produced a number of lawyers and key figures in public offices including the Supreme Court Justice.

Department of Law / Department of International Legal Affairs

★

To be closed in 2015 due to the establishment of the School of Law

The College of Natural Resources and Life Science deals with sciences and technologies related with life and natural resources, and it aims to produce talented people who will play a pivotal role in the natural resources and life science fields, which is growing into the leading industry of the 21st century. Following the fast development in related disciplines, the college provides the knowledge and information for students to become active participants in biotechnology fields and is guiding students to develop creative and inquiring minds.

Department of Genetic Engineering / Department of Molecular Biotechnology / Department of Applied Biotechnology / Department of Biotechnology / Department of Medical Biotechnology

Dong-A University is at the forefront of cultivating talented, well-rounded people with an enterprising spirit by providing positive opportunities and programs which are at the forefront of educational best practice. Learning at Dong-A University, provides students and staff with a place to realize the depth of and the fervent passion for learning in an open-minded, supportive environment.
The College of Engineering produces creative and talented people who will lead the age of advanced science and technology and the center for the research of engineering technology. The college has made steady progresses since 1955 and intends to improve on its solid foundation through competitive strength, handling more advanced engineering technologies and leading active exchanges as a center not only for technological research but also for industry-academic joint research with some of Korea’s most prominent companies.

Department of Civil Engineering / Department of Urban Planning and Engineering / Department of Landscape Architecture / Department of Environmental Engineering / Department of Energy and Physical Resource Engineering / Department of Electronics Engineering / Department of Computer Engineering / Department of Electrical Engineering / Department of Architectural Engineering / Department of Mechanical Engineering / Department of Industrial & Management Systems Engineering / Department of Chemical Engineering / Department of Materials Science and Engineering / Department of Organic Material and Polymer Engineering

The College of Arts aims to develop both the intellectual and creative faculties of its students who aspire to become prominent professional cultural producers of the 21st century. The college encourages students to engage in theoretical as well as practical, studies, creative activities and performances to develop the skills they need in order to play a part in the advancement of art and culture.

Department of Fine Arts / Department of Craft Arts / Department of Fiber Arts / Department of Music / Department of Instrumental Music

The College of Medicine guides students to develop mature professional ethics based on the guiding principles of our profession, respect for human life. These future healthcare professionals will acquire essential knowledge about their specialty and undergo practical courses in a systematic manner. Also, the college encourages students to always engage in their studies with creative and inquiring minds to become healthcare professionals who can contribute to the enhancement of the nations health and general human welfare.

Department of Pre-medicine / Department of Medicine / Department of Nursing

Public policy is a field of study which suggests policy goals for the basic developmental direction of society. It belongs to, develops and studies the policy means for implementing these policy initiatives. The college develops an understanding of public policy, critical perceptions, and a capability to suggest rational solutions and also cultivates leaders who can solve problems creatively and fulfill social responsibilities through the convergence of knowledge between related disciplines.

The Department of International Studies started out as an independent department leading the internationalization of the school and has an independent education system. It carries on the legacy of the Department of International Legal Affairs which is approved as the best department at Dong-A University and is determined to produce talented people essential for the international era.

Place for Various Cultural Exchanges and Acquisition of Knowledge

International Exchange Program

1. Exchange Student
Students of Dong-A University can study in a sister university for a minimum of 5 semester to at most 1 year. Tuition fees will be substituted with the tuition the student paid to Dong-A University. A number of students have the chance to study in sister universities around the world each semester.

2. Dual Degree System
The dual degree system is for passionate undergraduate students who wish to complete courses at Dong-A University and at an accomodating sister university. Students in this program will receive a bachelor’s degree from both universities.

3. Overseas Language Study Program
The overseas language study program allows students to learn a foreign language in a sister university during the break or regular semester. Also, this gives the students the opportunity to have direct experience of foreign culture.

4. Overseas Internship
Students joining the overseas internship program can work as interns at an overseas company or university. This program was provided to help students build up field experience related to their majors and to develop international competence.

5. Semester-Long Dispatch Program
The semester-long dispatch program was designed to give students more opportunities to study abroad. Students can take language course or courses related with their majors in sister universities for a semester. Students will have the same status as an exchange student during the course except they are exempt from paying tuition fees at the corresponding school.

6. Overseas Volunteer Services
Students can participate in various volunteer services in European countries and Canary Islands, China during summer and winter breaks. By providing volunteer services in different cultural environments, students will learn about humanity and mutual respect, as well as international understanding.

7. Short-term Student Exchange Program
Dong-A University with sister universities operate 1-week exchange programs. Through these programs, students can gain some understanding of both cultures and also strengthen the ties of friendship between these two countries.

8. Korean Language Course in Summer Session
The Korean Language course held during the summer session is a 2.5-3 week program and it provides the student of Dong-A University to learn Korean language and culture. Basic Korean language courses and seminars related with the Korean economy/society/ culture will be provided. Also, foreign students and the students of Dong-A University can become friends with each other through the program.

Dom-U University with its customized programs and excellent support for foreign students was selected for the 2013 GKS (Global Korea Scholarship) program. Research institutes for International Network for Institutes for International Education in 25 countries. Dong-A University operates educational programs customized for individual foreign students through its systematic educational system, effective support for foreign students, and Korean Language Courses for all levels of students to enable them to concentrate on their studies.

Expanding Competitive Strength in an Era of (Internationalization) and Globalization

Many alumni of Dong-A University are actively participating globally in the world-wide society. Dong-A University is linked with 162 universities and research institutes in 25 countries to develop international network services required by globalization. DAU is dispatching over 1,000 students to a number of countries including the USA, UK, Germany, France, Australia, China, and Singapore through overseas programs including: student exchange, dual degree, summer session, overseas internship, language training, and cultural exploration programs. Furthermore, in 2009 the school opened Global Zone. It is a place where foreign and Korean students can interact, and provides an environment where students can make themselves familiar with foreign languages through related programs such as the 1:1 mentoring program with the foreign students enrolled in Dong-A University and exchange students invited to the school.

Bridgehead for Vitalizing Exchange between Vietnam and Korea

Korean Language Center in Vietnam

Dong-A University has been operating Dong-A University Korean Language Center inside Vietnam National University-Ho Chi Minh City from November 2012. The Korean Language Center was established to help Vietnamese people learn the Korean language and understand Korean culture and it is expected to play a vital role as a bridgehead for talented Vietnamese people wanting to find opportunities in Korean companies in Vietnam and in Korea and also vitalize the exchange between the two countries.

A Place where technology and knowledge meet to define the future, Dong-A University

The advanced campuses of Dong-A University combines advanced knowledge and technological strength to create unlimited potential for the future.

International Center

The International Center with 2 basement floors and 12 aboveground floors was completed in June 2012 having taken 2 years and 9 months to build. Containing a multipurpose hall, capable of holding international seminars and performances, Global Zone, an advanced library, and accommodation facilities, it furthers Dong-A’s role as the place for international academic research international exchange and internationalization.

Global Zone

Global Zone is a foreign language exclusive space where Korean students and foreign students can interact freely. Students can watch foreign broadcasts and have 1:1 conversations with native speakers to enhance their linguistic skills and also read foreign language periodical publications in a number of languages including English, Japanese and Chinese. Global Zone offers new language training and cultural experience programs every month for students to increase their foreign language skills and acquire a cosmopolitan outlook.

Cardio-cerebrovascular Center

The Cardio-cerebrovascular Center which was established in 2012 is part of Dong-A University Medical Center. Dong-A University Hospital is the largest hospital in the Busan and Ulsan regions. The center has 9 aboveground floors and 2 underground floors and is 20,000m² in total floor space, and it has an Emergency Medical Center with a variety of the latest emergency medical equipment and around the clock emergency medicine specialists stationed at the center. It also has, Outpatient Examination Rooms which exclusively treat cardio-cerebrovascular diseases, and a cardio-cerebrovascular disease exclusive ward, and a heliport to transport emergency patients.

Library

Dong-A University has large scale libraries in all three campuses and also includes specialised Law and Medical Library’s. In total, the libraries have 4,800 seats and a collection of over 1 million books and 11,400 different periodicals. The school has recently established a new library with the latest facilities, within the Institute of International Exchange and Education on the 5th to 10th floors. Additionally, the school recently developed a comprehensive database of electronic books and academic journals, placing Dong-A University libraries as a repository of the latest knowledge.
